

ICAM Signs VAR Agreement with D2M Solutions

Montreal, November 10, 2011 – ICAM Technologies Corporation (ICAM) announces the signing of a Value Added Reseller (VAR) Agreement with D2M Solution (D2M) based in United Arab Emirates (UAE) to provide local UAE customers, running CATIA, with advanced ICAM NC post-processors, G-Code verification and technical support services.

D2M will offer ICAM's complete Integrated Post-Processing, Simulation & Emulation (Integrated PSE) solution mainly to aerospace & defense, automotive and shipbuilding industries using CATIA.

D2M was chosen by ICAM, because of their extensive skills and experience in implementing and supporting Dassault Systèmes PLM solutions as well as their NC manufacturing expertise particularly within the CATIA CAD / CAM market.

ICAM develops and delivers industry leading manufacturing software and services specializing in NC post-processing solutions that support the most popular CAD / CAM systems, machine tools and controllers for innovative manufacturers around the world.

ICAM's product suite includes CAM-POST® for NC post-processor development with the option for integrated machine tool simulation using Virtual Machine®. ICAM also supports G-Code verification driven with Control Emulator™ inside Virtual Machine or CATIA / DELMIA.

ICAM's customers benefit from dramatic improvements to CNC machine optimization, NC programmer productivity and manufacturing process efficiency. ICAM's unique technology and services provide its customers and industry partners with the competitive edge that their business operations and customers demand.

About D2M Solutions

D2M Solutions is headquartered in the United Arab Emirates and serves the R & D and new product development technology requirements for industrial enterprises, Universities, Research labs, workshops and SMEs in the Middle East, North Africa, Pakistan, Greece, Cyprus and Malta. D2M is the most experienced company in the region, offering rapid product development solutions in the following areas: CAD/CAM/CAE, PLM (Product Lifecycle Management), Reverse Engineering, Inspection, and Quality Assurance systems, (handheld and portable 3D scanners and CMM), 3D Printing and Rapid Prototyping, and Direct Digital Manufacturing/Additive Manufacturing, (AM) solutions for end user parts and fabrication and assembly tools. About ICAM Technologies Corporation

For 40 years ICAM Technologies Corporation has been specializing in the development and implementation of advanced NC post-processing solutions for manufacturers in major industries around the world. ICAM has added an integrated machine tool simulator, Virtual Machine®, with the provision for Machine Code Data (MCD) verification driven with ICAM Control Emulator™ to its product mix that further strengthened its position in the NC manufacturing market. ICAM customers benefit from dramatic improvements to CNC machine optimization, NC programmer productivity and manufacturing process efficiency. ICAM's unique technology and services provide its customers and industry partners with the competitive edge that their business operations and customers demand.
